Performance Notes

  = Flatterzunge

  = Tongue pizzicato

  = Jaw vibrato.- a irregular and rough vibrato-like sound, generated through an exaggerated up and down movement of the lower jaw, not necessarily supporting the traditional "clean" flute sound.

  = Jet Whistle

  = poco accelerando

  = Bend ¼ tone up and down the given note

  = Bend ½ tone up and down the given note

  = Press the midi controller pedal to set the next patch stage

Imagery from Michael Ende's: "Die Unendliche Geschichte" is translated into a conflict between live electronics and flute, in which the sound of one cannot exist without the sound of the other. Sikanda is the swiftest, most agile sword there is, just like Jos' flute.
